Wordpress / Elementor / HTML / CSS

Problem Solving / Analysis

Teamwork

## SKILLS

Sketch / Figma

Photoshop / Illustrator

Adobe XD / InVision

Slack / JIRA / Asana / can learn others..

## ABOUT ME

I care about the details and consider the interactive design of affordances to be crucial in creating effective, intuitive interfaces. I like prototyping – it helps me think through interaction models and new possibilities.

I really love electronic music, mountain biking, and swimming. I enjoy different paths to see things from a fresh perspective :)

## OBJECTIVE

I'm looking for a full time position where I can better develop my entry level skills and help the company to achieve its goals and help to fix the problems that it might be facing. I've been always doing a freelance work but now, it's time to join a new team and interact with other designers and developers to design ideas to grow and create experiences together.

## EXPERIENCE

### UI/UX Designer

Freelance

2017-2020

Worked as a Freelancer in my spare time collaborating with a team of developers and designers to carry out innovative and experimental projects.

I've worked with IT companies, healthcare studios, music events agencies and also taken on solo projects. The work has been primarily in the realms of user experience, interactive design and UI design.

### IT Support Engineer

THE ICONIC

2018-2020

Problem solving / Analytical skills / Troubleshooting / Software Testing and improvements / Analytical eye for processes and procedures in order to automate tasks with innovative solutions.
